Where Ideas Become Reality {please match this color to above - #660033?}

Where your ideas ... your inspiration ... your vision ...

Become reality through communication ... collaboration ... and partnership.

A partnership that blends the intuitive with the rational. That unites form with function. That fuses how spaces work with how they feel.

At Skott & Anderson, your ideas become reality through a collaborative effort ... melding your vision with our design and management expertise for the definitive blend of form, function, and aesthetic design.

We've found it's a winning approach. An approach yielding successful, creative solutions to some of the most challenging workplace and real estate problems in the architectural, planning, and interior design field.

Because we're partners ... making your goals our goals ... your success our success ... Skott & Anderson enjoys productive, long-term relationships with a variety of [Healthcare](#), [Commercial](#), [Industrial](#), [Corporate](#), [Civic - Cultural](#), [Residential](#), and [Education](#) clients.

Your ideas ... your inspiration ... your vision ...

Mission - Skott & Anderson

Where Ideas Become Reality

Where your project becomes our project through ...

Passion ... Vision ... and Values

Skott & Anderson's mission ... our reason to exist ... is to build enduring relationships with *people*.

And we build that relationship on trust, integrity, professional passion, and outstanding design.

By providing creative, flexible solutions, and exceptional design to the architectural, planning, and interior design phase of your build, we earn your trust ... and your business ... project after project.

Skott & Anderson is committed to ...

... design excellence, technical competence, effective time management, and building within your budget ...

... adding value, innovation, ingenuity, and creativity to every project ...

... personal attention and exceptional service to our clients.

Our core purpose is to ...

... build enduring relationships with our clients ... support our clients goals ... and create better places to work, grow, and prosper.

At Skott & Anderson, we specialize in metamorphosis ...

The metamorphosis and transformation of ideas from concept to completion ... from dream to reality ... from raw material to finished, functional, aesthetic structure ...

... achieved with professionalism ... passion ... uncompromising ethics ... and outstanding design.

Contact us today to make *your* ideas become reality.

Who We Are - Skott & Anderson

Where Ideas Become Reality

Craig Skott
Principal, President
Skott & Anderson Architects

Gary Anderson
Principal, Vice President
Skott & Anderson Architects

Craig Skott's professional architectural accomplishments span three decades and demonstrate unparalleled skill in a diverse array of architectural projects, ranging from [Public Buildings](#) and [Commercial Projects](#) to [Education](#), [Assisted Living](#), and [Health Care Facilities](#). {Insert links to Craig's building pictures page or individual pictures}

As President of Skott & Anderson Architects, Craig is responsible for client relationships, project administration, planning, programming, design, specifications, bidding, and construction administration.

Craig is a graduate of Iowa State University and is registered professionally in Iowa, Minnesota, and Wisconsin.

In addition to practicing the art and craft of architecture, Craig stays actively involved in professional and community organizations:

- American Institute of Architects
- Rotary, Mason City Chapter
- Mason City Plumbing Appeals Board
- North Iowa Builders Exchange
- Mason City Chamber of Commerce

As leader of the firm's innovation and technology initiatives since 1994, Gary Anderson melds the marvel of technology with creative inspiration to keep Skott & Anderson on the cutting-edge of architectural evolution.

Gary is a multi-dimensional architect and has an impressive architectural track record in [Public Buildings](#), [Commercial Projects](#), [Education](#), [Assisted Living](#), and [Health Care Facilities](#) design. {Insert links to Gary's building pictures page or individual pictures}

A graduate of Iowa State University with his Bachelor's in Architecture and a Minor in Housing and Near Environment, Gary is registered professionally in the State of Iowa and belongs to the American Institute of Architects and the U.S. Green Building Council.

Gary is passionate about open communication in all phases of a project and is actively involved in planning, programming, design, specifications, bidding, and contract administration.

Gary actively participates in community activities as a Mason City Chamber of Commerce member and serves on several county and charitable boards.
