

One of America's most dangerous killers will be responsible for 40% of all deaths this year, attacking men, women, and children alike* ...

Empower Yourself!

Discover 5 ways to fight ... and win ... the battle against heart disease!

The evidence is in. The dead have been counted. And they tell a sobering and frightening tale from beyond ...

- ✓ This year, 910,000 Americans will die of heart disease** ...
- ✓ The incidence of congestive heart failure has tripled in the last 15 years*, *exceeding 7,692 per week* according to the National Heart, Lung, and Blood Institute ...
- ✓ **70 million Americans live every day** with some form of heart disease including **high blood pressure, cardiovascular disease, stroke, angina** (chest pain), **heart attack**, and **congenital heart defects**.**
- ✓ **Coronary heart disease kills more people in the United States than the next 7 leading causes of non-violent death combined!**†

Fortunately ... for you and your family ... an amazingly simple program is empowering men and women just like you to take control of your heart health ...

In fact, simply following this easy-to-use plan - along with a few minor changes in your daily routine - could help some people on certain medications *stop taking them altogether* after just a few short weeks!‡

Lenny writes –
“... my health improved so much that I was able to get off all the medications I had been on within a month.”
